 flacarp

 flacarp

The new top bite alarms **FLACARP X7** are equipped with a **revolutionary ultra-sensitive sensor** which responds from 1.5mm fishing-line movement in both directions. Possibility to adjust the length of the fishing-line movement in a wide range, **a new range of tones** from popular deep “croaking” to high tones, smooth volume control. Clear optical signaling with the possibility of adjusting the RGB LED color and brightness. Extreme mechanical resistance, powered by standard AAA batteries.

PROPERTIES

- ⊕ **New revolutionary scanning with ultra-sensitive analyzing of the fishing-line movement in both directions with the setting of movement length in a wide range**
- ⊕ **Button for easy functions control (MUTE, position LED ...)**
- ⊕ **Intuitive RGB LED notification of the fishing-line unwinding direction**
- ⊕ **Adjustment of the RGB LED color and brightness (possibility to turn off the LED)**
- ⊕ **Loud acoustic signaling with tone and volume control**
- ⊕ **Integrated long-range wireless listening-in**
- ⊕ **Toggle switch for easy and intuitive switching ON and OFF**
- ⊕ **Night position LED, clear notification of battery status**
- ⊕ **Swinger connector (JACK 2,5mm)**
- ⊕ **Incredible material strength: non-cracking housing**
- ⊕ **Rain resistance ensured by a set of seals**
- ⊕ **The metal axis of the roller does not “bake” even during fast ride**
- ⊕ **Powered by standard AAA batteries (2pcs, 2x 1.5V)**

LISTENING-IN RECEIVER

+420 731 115 151

obchod@tfe.cz

flacarp.com

flacarp

flacarp

Wireless listening-in receiver analyzes fish-bite from the FLACARP bite alarms. The receiver notifies the fish-bite but also the alarm from motion sensors. Possibility to remotely control up to 4 FLACARP lights. Just all in one. Durable construction. Power supply by standard batteries.

PROPERTIES

- **Memory for up to 12 FLACARP devices: Bite alarms, motion sensors and other accessories**
- **Analyzes the bite, shows the same RGB LED color diodes as set on the bite alarm and also the same tone**
- **Signalizes acoustically and optically ride forward and backward (each differently)**
- **Notify of the alarms from FLACARP motion detectors and shock sensors**
- **Remote control of FLACARP LED lights and other accessories using the main button**
- **Volume control, mute mode**
- **Vibration notifications**
- **Low battery advance notice**
- **Powered by standard AAA batteries (2pcs, 2x 1.5V)**
- **Long battery life**

FLACARP SETS

flacarp.com

flacarp

flacarp

We develop and manufacture quality electronics for fishermen with more than 25 years of experience.

FLACARP bite alarms are distributed in a resistant case in sets from 2 to 4 bites alarms + receiver.

Thanks to the clever storage the **minimum dimensions** of the entire case are maintained as it measures only 23 x 15cm and height 7.5cm. **Guaranteed compatibility** allows the expansion of the set. The set includes a lanyard for hanging the receiver on the neck and the manual.

Let's check our QR ;)

IN OUR OFFER YOU CAN FIND 3 TYPES OF SETS

2+1

3+1

4+1

XXL Case

For your MAXI set FLACARP with positions for:

- 4x bite alarms and 1x receiver
- 1x motion alarm
- 3x FLACARP SENS micro-sensors
- 1s FL6-RGB lamp
- The case is part of the XXL set or can be purchased separately
- Case dimensions 27x20x8cm
- More informations at our website www.flacarp.com

FLACARP motion sensors help you to secure your expensive equipment. They monitor the movement of unwanted person around your fishing place, bivouac, boat, car, etc.

FLACARP AL2 MOTION SENSOR

- ⊕ Detection of unwanted person at an angle of 140° with range up to 6 meters
- ⊕ For the double-side version, the detection angle is 140° from the front and 140° from the back side
- ⊕ Sensitivity switching (6m/3m)
- ⊕ False alerts filter
- ⊕ Wireless notification on the FLACARP receivers RFX or RX7 - range up to 1 kilometer
- ⊕ Integrated position LED light with remote control option
- ⊕ Durable construction, perfect protection against rain
- ⊕ Powered by two standard AAA batteries (2x1.5V)
- ⊕ Long battery life
- ⊕ Double side version (AL2) or one side version (AL1)

When any motion is detected the alarm immediately alerts the fisherman to his RX7 receiver where the acoustic and LED inform.

MICRO-ALARM FLACARP SENS

The alarm easily monitors your equipment. It detects change of position, shocks, unauthorized manipulation. Wirelessly sends an alert to your receiver. Long range, sensitivity adjustment, small **dimensions 4x4x1.5cm only**, powered by CR2450 battery.

FLACARP LED LIGHT FL6-RGB

- ⦿ Rechargeable flashlight with built-in powerful Li-Ion battery 2000mAh
- ⦿ Listening-in memory for up to 10 FLACARP devices
- ⦿ RGB light - the ability to switch the LED color and also assign a color to a specific bite alarm or alarm or mirror the same LED color, as set on the bite alarm
- ⦿ LED intensity option (brightness adjustment)
- ⦿ 100% waterproof - can be used in a bivouac and as an outdoor light
- ⦿ Easy charging from a phone charger, car or power bank (micro USB connector)
- ⦿ Integrated listening-in range up to 1 kilometer
- ⦿ Possibility of use as a remote-controlled position light or buoy.
- ⦿ Strong magnet and loop for easy hanging

FLACARP RECHARGEABLE HEADLAMP HL1200

Rechargeable headlamp with powerful LED lights with high luminosity up to 300lm with integrated Li-Pol battery 1200mAh. Reliable, rain-proof lamp with the control by a button or by a contactless sensor. Simply wave your hand in front of the headlamp and it will light up in the mode you selected. Charging by USB connector from a standard mobile phone charger, from a car or powerbank.

BITE ALARM F2

Top bite alarm with the line movement length, tone and volume settings.

PROPERTIES

- Fish-line scanning with sensitive analyzing
- RGB LED notification of the fishing-line unwinding direction
- RGB LED color adjustment
- Acoustic signaling with volume control
- Night position LED
- Swinger connector (JACK 2.5mm)
- High material strength
- Rain resistance ensured by a set of seals
- The metal axis of the roller does not "bake" even during fast ride
- Powered by standard AAA batteries (2pcs, 2x1.5V)

BITE ALARM F3

Standard bite alarm suitable for beginner fishermen and those who like simplicity.

PROPERTIES

- Simple intuitive control with rotary buttons and toggle switch
- Acoustic bite notification with the volume and tone adjusting
- RGB LED lights with color adjustment
- Two levels of sensitivity
- Swinger connector
- High material strength
- Powered by standard AAA batteries

QUALITY EUROPEAN FISHING ELECTRONICS FLACARP

FLACARP

Dear fishermen,
We develop and manufacture FLACARP products for you with the greatest care in Bzenec in the Czech Republic. Already during the development, we try to satisfy your wishes and expectations. We use the best materials, top electronic components and we apply our many years of experience dating back to 1994. We provide fast delivery, flexible response to your requirements and great service.

Thank you for your interest.

Tomáš Flajzar
